About Me

Birth year: **1994**
Nationality: **UZBEKISTAN**
Visa Type: **F2-7**

Languages skills

Uzbek
English
Korean

Interested in

- Artificial Intelligence
- Graphical User Interface
- Computer Vision
- Mathematics
- Medical IT
- Robotics
- Automation Tasks

Hobbies

- Playing soccer
- Traveling
- Watch comedy & action movies

Knowledge

- Artificial Intelligence
  - Machine Learning
  - Deep Learning
  - Reinforcement Learning
- Computer Vision, Image Processing
- Graphical User Interface
- Web development
- Unity 3D
- Automation Testing mobile android&ios apps
- Operation Systems
  - Linux
  - Mac
  - Windows

ABDURAIMJONOV ABDURAKHMON

Senior Rearcher&Developer

With 5 years of expertise in Artificial Intelligence and Computer Vision, my primary focus has been on object classification, recognition, detection, and image processing. Furthermore, having over 3 years of hands-on expertise in automation testing for Android and IOS mobile applications as well as including the development of GUI applications tailored for both kiosk devices and mobile platforms

Experience

ONYCOM Inc. Seoul, Korea *November 2020 - Present*
Senior Researcher | Solution Team

- **Automation Tool** to **test IOS** and **Android apps** automatically
- Implementing Object **Detection Model**s to detect **all objects** on **Mobile applications** (e.g. Icon, Image, Text ...)
- New **LabelImg** tool for **Rule Based testing**, **Auto Labeling**, **Auto Data Augmentation** and **Auto Training**
- **New Multi-Scale Template Matching** method to **control** and **test multi-devices** in the **same time**
- **Rest APIs** for Detection Models and Automation tools

GREW CREATIVE LAB Incheon, Korea *June 2020 – October 2020*
Researcher | R&D Team

- Implementing **Software Application** to combine **Unity 3D** and **Mujoco Physics**
- **Reinforcement Learning** researches: Robotics, Mujoco, Q-Learning, Actor-Critic, EPOpt and ML-Agents

ROBORUS Seoul, Korea *July 2019 – June 2020*
Researcher | R&D Team

- **Café cleanliness** (**Object Recognition** project)
- **Self-Ordering** applications for **Kiosk** and **Mobile** devices
- **Face** and **Emotion detection** models and **APIs**

CVPR LAB Kumoh National Institute of Technology *2017.9 – 2019.8*
Researcher | Master's degree student

- **Image quality** improvement: removing fog, haze and noise
- Improving Classification result using **Fast Fourier Transform**
- **Car toys** recognition and detection

UDEMY Python Course instructor

- Making **Basic Python Programming** course. Course name is **Python for Beginners. Learn Twice (FREE Presentation EBOOK)**
  Link: https://www.udemy.com/course/twice-learning-python-programming-language/?src=sac&kw=learn+twice

Programming Languages

Python

OpenCV, Numpy, PyTorch, Keras, Tensorflow, Matplotlib, Flask, Django, Json, XML, UI Automators, Scikit-learn, Requests, Pandas, PIL, PyQt, WebDriveAgent

C++

OpenCV, Openframeworks, C++ Builder

JavaScript

HTML, CSS

C#

Unity

R

Strength

> Innovative, Critical observation
> Patience, Smart work
> Quick learner, Motivator
> Helping, Friendly

Education

Master's degree in **Computer Engineering**, Kumoh National Institute of Technology

GPA: **4.1** / 4.5
Common Courses: Artificial Intelligence, Comput Vision, Image Processing, Machine Learning and Deep Learning
Period: **2017-2019**
Thesis: Concatenation of Spatial and Frequency image for recognition of roughly detected characters

Bachelor's degree in **Computer Engineering**, Tashkent University of Information Technologies

GPA: **75.1** / 100
Common Courses: – Linear Algebra, Calculus, Probability and Statistics, Programming in C++/Java, Web Application Development in JavaScript, WordPress
Period: **2013-2017**
Graduation Project: Online market for sell applications

Publications

Patent:

- 딥러닝 기술과 새로운 다중 스케일의 템플릿 매칭 기술 융합을 통한 특정 객체탐지 기술 (Specific object detection technology through convergence of deep learning technology and new multi-scale template matching technology) **2022**

Papers:

- Extending Input Channel Using Global Feature Image for Convolutional Neural Networks
  https://ieeexplore.ieee.org/document/8960966 **2019**
- INNOVATIVE INFORMATION TECHNOLOGY IN EDUCATION
  https://forum-nauka.ru/domains_data/files/9/Karimov.pdf **2017**

Language Certificates

KIIP Level 3 (사회통합프로그램 3 단계 힙격) August, **2023**
IELTS 5.5 band of April, **2017**
